1. Discussion on the closed bridge west of Warren

The committee discussed the options regarding the closed bridge on Stagecoach Trail west of Warren. Steve Keeffer estimated that a temporary culvert could be installed for about \$60,000. The temporary culvert could be used for a temporary detour route at a later date that would allow two structures to be replaced at one time, and could eventually be used as a permanent structure(s) in other locations. After some additional discussion, Dan Hughes made a motion to proceed with the installation of a temporary culvert, Bob Heuerman seconded, and the motion carried.

2. Discussion on the establishment of a detour route for the closed bridge West of Warren

Steve Keeffer presented a proposed detour route for the closed portion of Stagecoach Trail. The detour utilizes county and state routes. Steve Keeffer indicated that the signage for the route would be about \$1,000. Rick Dittmar made a motion to proceed with the detour route, Ron Smith seconded, and the motion carried.
